I am a full Stack developer who is passionate and eager to develop in a team atmosphere. With an open-minded attitude, I am always prepared to embrace and acquire new skills.

Work Experience

Jul 2023
Aug 2023

Application Developer & Manager
SNE International
Bujumbura, Burundi

I worked at SNE International, a third-party organization that supported researchers in their studies. My role involved developing and maintaining two web applications—one for data entry and another for the manager's team. These apps aimed to optimize data entry and enhance overall efficiency in the research project.

Jun 2019
Nov 2020

Graphic Designer
Jisho
Bujumbura, Burundi

In my role, I had a diverse range of responsibilities that included creating posters, logos, and websites. I worked closely with a videographer, collaborating to provide components for video animation. Additionally, I occasionally took on team management duties during the production of commercial videos and the provision of marketing services.
